## Professional Summary

Software Engineer with hands-on expertise in building high-performance web applications using React.js, Next.js, Node.js, and NestJS. Experienced in backend API development, PostgreSQL, MongoDB, Oracle databases, responsive frontend development, and AI/NLP integration to deliver production-ready software solutions.

## Work Experience

### Full-Stack Developer Intern

Jul 2026 – Present

*Nextbridge*

*Lahore, Pakistan*

- Developing production web features using React.js, Next.js, Node.js, and TypeScript.
- Built and integrated REST APIs while maintaining clean architecture and database performance.
- Participated in Agile development, code reviews, Git workflows, and sprint planning.

### IT / Database Intern

Apr 2026 – Jun 2026

*Kohinoor Mills Limited*

*Lahore, Pakistan*

- Supported Oracle database operations, SQL queries, maintenance, and reporting.
- Assisted with system diagnostics, user access management, and software troubleshooting.

## Projects

### AI Study System

GitHub

*Next.js, NestJS, TypeScript, MongoDB, OpenRouter / OpenAI APIs, Tailwind CSS, Vercel, Render*

- Built an AI-powered study platform featuring document ingestion using pdf-parse and mammoth to extract text from PDF and DOCX study materials.
- Integrated OpenRouter / OpenAI API endpoints to automatically generate AI summaries, interactive flashcards, and practice quizzes.
- Developed a NestJS backend with JWT authentication, Bcrypt password hashing, email verification workflows, and MongoDB/Mongoose models; deployed the backend on Render.
- Created an interactive Next.js dashboard with subject organization and activity analytics; deployed the frontend on Vercel.

### Smart System for Analyzing Sentiments & Emotions (FYP)

*React.js, Node.js, Python, PostgreSQL*

- Developed an AI-powered sentiment and emotion analysis platform with REST APIs and a React dashboard.

### Real-Time Collaborative Task Management System

*React.js, Firebase, Material UI*

- Built real-time collaborative task boards with authentication and role-based access control.

## Technical Skills

**Languages:** JavaScript, TypeScript, Python, Java, C++, SQL, HTML5, CSS3

**Frontend:** React.js, Next.js, Tailwind CSS, Material UI, Redux, Context API

**Backend:** Node.js, Express.js, NestJS, REST APIs, WebSockets, JWT, Bcrypt

**Databases:** PostgreSQL, MongoDB, MySQL, Oracle

**Tools:** Git, GitHub, Postman, Linux, Agile, RBAC, OOP, DSA, Scikit-learn, Pandas, NumPy

## Education

### BS Software Engineering

2022 – 2026

*University of Central Punjab (UCP)*

*Lahore, Pakistan*

**CGPA:** 3.29 / 4.00

**Relevant Coursework:** Data Structures & Algorithms, Database Systems, Web Engineering, OOP, Software Design Patterns

## Certification

**MERN Stack Development Certificate**

Training for Tomorrow
