

Abu Bakar Javed

BS Software Engineering | MERN Stack Developer

+92 303 786 1568 | 1515.abubakarjaved.m2@gmail.com | linkedin.com/in/abubakar-javed1135 | Lahore, Pakistan

PROFILE SUMMARY

Final-year BS Software Engineering student at the University of Central Punjab (CGPA: 3.21/4.0) with hands-on experience in MERN Stack development and a foundational understanding of Machine Learning. Proficient in JavaScript, C++, and Java, with practical exposure to DevOps practices and Information Security. A proactive communicator with team leadership experience, seeking an internship to apply technical skills to real-world software challenges.

EDUCATION

Bachelor of Science – Software Engineering

Mar 2022 – Feb 2026

University of Central Punjab (UCP) | Lahore, Pakistan

CGPA: 3.21 / 4.0 | Reg. No: L1S22BSSE0212

- Completed 136 credit hours covering full-stack development, machine learning, networks, security, and software engineering.
- Took on leadership roles in team-based software projects, coordinating development timelines and deliverables.

TECHNICAL SKILLS

Languages: JavaScript, C++, Java

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs

Database: MongoDB

Stack: MERN Stack (MongoDB, Express, React, Node)

AI / ML: Python, Supervised Learning, Data Preprocessing, Feature Selection, scikit-learn

DevOps & Tools: Git, GitHub, Linux basics, DevOps Fundamentals

Other: Information Security basics, Software Project Management, Automated Testing

PROJECTS

Full-Stack Web Application (MERN Stack)

2024

Academic Project

- Designed and built a full-stack web application using MongoDB, Express.js, React, and Node.js.
- Implemented RESTful APIs for backend services and connected them to a responsive React frontend.
- Applied best practices for code structure, version control with Git, and deployment workflows.

Machine Learning Classification Model

2024

Academic Project

- Developed a supervised machine learning model to classify data using Python and standard ML libraries (scikit-learn).
- Performed data preprocessing, feature selection, and model evaluation to optimize prediction accuracy.
- Documented findings and presented results to peers, demonstrating ability to communicate technical concepts clearly.

Final Year Project (FYP I & II)

2025 – 2026

University of Central Punjab

- Completed a two-semester capstone project applying end-to-end software engineering: requirements, design, implementation, and testing.

- Achieved A grade in FYP I and A- in FYP II, reflecting strong technical execution and project management.

CERTIFICATIONS

Introduction to Generative AI

Aug 2023

Google

- Gained foundational knowledge of Generative AI models, Large Language Models (LLMs), and prompt engineering.
- Explored responsible AI principles and applied skills through hands-on labs using Google AI tools.

RELEVANT COURSEWORK

Software Engineering & Development

Software Requirement Engineering • Software Design & Architecture • Software Construction & Development • Software Quality Engineering • Software Project Management • Software Re-engineering • Formal Methods in SE

Web & DevOps

Web Engineering • Web Application Development • Advanced Web Programming • DevOps Fundamentals

AI & Data

Applied Machine Learning • Stochastic Processes • Probability & Statistics • Discrete Structures • Linear Algebra

Core CS

Data Structures & Algorithms • OOP • Operating Systems • Computer Networks & Communication • Intro to Database Systems • HCI

Testing & Professional

Automated Software Testing • Information Security • Professional Practices • Organizational Behaviour & Culture • Technology Entrepreneurship

SOFT SKILLS & LANGUAGES

Strong written and verbal communication; comfortable presenting technical ideas to non-technical audiences. Leadership experience in team-based academic settings, coordinating project timelines and deliverables. Keen interest in AI, cloud computing, and modern web technologies.

Languages: English (Professional) | Urdu (Native)
